\*Only the date of fling § 1.6 will be the date used in a patent term adjustment calculation, although the date on any certificate of mailing or transmission under § 1.8 continues to be taken into account in determining timeliness. See § 1.703(). Consider "Express Mell Post Office to Addresses" § 1.10) or faceimile transmission § 1.6(4) for the reply to be accorded the seriest possible fling date for patent term adjustment calculations.

- (1) Each U.S. patent listed in an information disclosure statement must be identified by inventor, patent number, and leave date.
- (2) Each U.S. patent application publication listed in an information disclosure statement shall be identified by applicant, patent application publication number, and publication date.
- (8) Each U.S. application listed in an information decideure statement must be identified by the inventor, application number, and filling date.
- (4) Each foreign patent or published foreign patent application listed in an information discioure statement must be identified by the country or patent office which leaved the patent or published the application, an appropriate document number, and the publication date indicated on the patent or published application.
- (B) Each publication listed in an information disclosure statement must be identified by publisher, sucher III and, title, relevant pages of the publication, data, and place of publication.

WARNING: No extension of time can be had under S7 C.F.R. § 1.138 (a) or (b) for filing an IDS. S7 C.F.R. § 1.87().

NOTE: The "Bing date of a national application" under 37 C.F.R. § 1.97(h) has two possible meanings. Where the Bing is a direct one to the United States Petent & Trademark Office, the Bing is defined in 37 C.F.R. § 1.53(h) as "the date on which: (1) A specification containing a description pursuent to § 1.71 and at least one claim pursuent to § 1.75; and (2) any drawing required by § 1.81(n), are filled in the Patent and Trademark Office in the name of the soluel inventor or inventors as required by § 1.41." 37 C.F.R. § 1.97(h)(1). On the other hand, an international application that enters the national stage occurs when the applicant has filed the documents and fees required by 38 U.S.C. § 371(x) within the periods set forth in § 1.484 or § 1.485. 35 U.S.C. § 371(x) requires the Bing of the following: (1) the basic national lea; (2) a copy of the international application, unless already sent by the international Bureau, and optionally an English translation if filed in another language; and, also optionally (3) amendments under PCT Article 18, with a translation into English if made in another language; (4) an oath or declaration; and (5) a translation into English of any annexes to the international preliminary examination report, if such annexes were made in another language. The optional items must be submitted later, with surcharges. 37 C.F.R. § 1.97(h)(2).

## IDENTIFICATION OF TIME OF FILING THE ACCOMPANYING INFORMATION DISCLOSURE STATEMENT

The information disclosure statement submitted herewith is being filed within three months of the filing date of the application or date of entry into the national stage of an international application or before the mailing date of a first Office action on the merits, whichever event occurs last. 37 C.F.R. § 1.97(b).

- NOTE: "No certification or fee is due when the filling is made within the above time period. It is advisable to ensure that no Office action has been mailed if the disclosure statement is delayed until after three months from filling."
- NOTE: "An information declorure statement will be considered to have been filed on the day it was received in the Office, or on an earlier date of a mailing if accompanied by a properly executed certificate of mailing under ST C.F.R. 1.8, or Express Mail certificate under ST C.F.R. 1.10. An Office action is mailed on the date indicated in the Office action." Notice of April 20, 1982 (1138 O.G. 57-61, 35). See also § 600, M.P.E.P., 8th Edition.
- NOTE: "The term 'netland application' includes continuing applications (continuations, divisions, continuationsin-part) so three-manths will be measured from the soluci filting date of an application as apposed judg to the effective date of a continuing application." Notice of April 20, 1986 (1158 O.G. 57-41, 36.

(Transmittel of Information Disclosure Statement Within Three Months of Filing or Before Maling of First Office Action (8-3)—page 2 of 18 NOTE: "An action on the merits meens an action which treats the patentability of the claims in an application, as opposed to only formal or procedural requirements. An action on the merits would, for example, contain a rejection or indication of allowability of a claim or claims rather than just a restriction requirements (27 C.F.R. 1.142) or just a requirement for additional fees to have a claim considered (37 C.F.R. 1.16)(3). Thus, if an application was filled on Jan. 1 and the first Office action on the merits was not mailed until aix months later on July 1, the examiner would be required to consider any proper information disclosure statement filed prior to July 1." Notice of April 20, 1988 (1138 O.G. 37-41, 38).

"A petition for suspension of action to allow applicant time to submit an information disclosure statement will be deried as falling to present good and sufficient reasons, since 37 C.F.R. § 1.97 provides adequate recourse for the timely submission of prior art for consideration by the exeminar." Notice of July 6, 1982 (1141 C.G. 65). But see § 109(b) and (c), limited suspension of action in a continued prosecution application (CPA) filed under § 1.53(c) and in a request for continued exemination (FCE) under § 1.114.
